

Connect

Welcome...

... to the 3rd Edition of our quarterly newsletter, Connect. We are past the ½ way mark for the year of 2012 and time is flying past.

In this edition we feature a recent job we did for a council in one of Australia's busiest tourist centres. They required a Portable Stage that was fully contained in its own trailer – Select Concepts was able to design and fabricate the complete package in-house, utilizing the modular QUATTRO Staging system.

Other recent jobs also featured include QUATTRO Staging being utilized in many outback destinations, as well as a recent display at Melbourne Museum for an International Government Function.

Our product spotlight is on Embroidered Logos for Valance curtains this time; this has been a very popular feature especially for schools, and many Principals have reported that the number of happy parents has paid off the added investment many time over.

Please enjoy the read and we continue to strive to be the No.1 supplier of Staging and Dance Floor systems in Australia.

QUATTRO Staging for Tourist mecca

This QLD Council required a Portable, Modular Stage for the many events and functions that are hosted regularly but had 2 X main pieces of criteria that had to be met: 1) The Stage was to be supplied with a trailer that fully contained the complete set-up, being fully road registered and able to be towed by a regular car, and 2), as the Stage was to be regularly set-up on the beachfront, the complete kit from the actual Stage system itself thru to all componentry and the Trailer as well had to be corrosion-resistant and durable. The final set-up specifications are certainly impressive:

- 6m X 5m QUATTRO Staging System, with Marine Carpet decks
- 2 X sets of Adjustable-height legs to allow for 400/600mm and 600/1000mm Stage heights
- Valance Curtain for 3 X sides manufactured from heavy-duty PVC Vinyl to withstand harsh outdoor events including beach-side set-ups
- Full handrails to suit both Stage and Steps
- 24 high visibility Traffic cones
- All components stored in the custom-designed Trailer designed and manufactured in-house by Select Concepts.

Special Feature

QUATTRO tough enough for the Aussie Outback!

Select Concepts has recently won several contracts to supply Portable Staging Systems for some of the remotest locations in Outback Australia. These locations have predominately been to Mining and Government Industries where they require a robust, proven Staging system to suit their needs. The QUATTRO Staging system made in Australia comes with a 10-year Warranty and has proven itself to be

able to stand the test of time. Some of the areas we have supplied the QUATTRO Staging system to include:

- Roxby Downs SA
- Karratha WA
- Bourke NSW
- Mt Isa QLD
- Tenant Creek NT

Product Spotlight

Storage Trolley Kit

The Storage Trolley kit is our most popular accessory with the QUATTRO and PILOT Staging systems. This kit allows both the QUATTRO and PILOT to store in the most compact area of any Staging system on the market – up to 40m² of Staging can be Stored on the Trolley, taking up just 2m² of storage area when the stage is not in use!

International Spotlight on Staging

The Victorian Government Department of Premier and Cabinet recently hosted a function for International Ambassadors at the Melbourne Museum, and part of the event was a display of every flag for the 70+ Countries involved – QUATTRO Staging was used for this display with spectacular results.
