QUATTRO TIERED SEATING RISERS

QUATTRO TIERED SEATING RISERS

Designed for audience seating, assemblies, or performance groups, **QUATTRO Tiered Risers** offer clear sightlines, stability, and fast setup. Each platform connects seamlessly to create flexible tiered configurations that can be adapted for different events or venues.

All QUATTRO Tiered Risers feature **carpeted deck surfaces** for enhanced comfort, improved safety, and noise reduction — ideal for schools, theatres, and multipurpose spaces.

FEATURES

- Modular 2m x 1m and 1m x 1m platforms – easy to connect and configure
- Adjustable leg heights – create custom tiered or flat seating layouts
- Lightweight aluminium frame with 22mm structural plywood deck
- Carpeted deck surface for safety, comfort, and sound control
- Compatible with chair-stopper rails and handrails for additional safety
- Ideal for auditoriums, school halls, and event venues

QUATTRO Tiered Seating Risers – Engineered to Raise Audiences to New Heights.

PILOT CHOIR & QUATTRO ORCHESTRA RISERS

The **QUATTRO Choir & Orchestra Risers** are designed to elevate every performance — both visually and acoustically. Combining strength, flexibility, and safety, these modular risers are ideal for **seated orchestras, standing choirs, or mixed ensemble arrangements**.

FEATURES

- Designed for choirs, orchestras, and ensemble groups
- Modular deck options for seated or standing arrangements:
 - 2m x 1m (seated choir/orchestra)
 - 2m x 0.5m or 2.4m x 0.5m (standing choir)
- Available in **straight or curved tier configurations**
- Lightweight aluminium frame with 22mm Black plywood deck
- Carpeted deck surface for acoustic performance and safety
- Full range of **safety accessories** – handrails, chair-stopper rails, and steps
- Adjustable leg heights for custom tiered layouts
- Fast assembly, reconfiguration, and compact storage
- Ideal for schools, concert halls, and touring performances

Built on the same trusted QUATTRO framework, each riser connects seamlessly to form **straight or curved tiered layouts**, ensuring clear sightlines, even sound projection, and a cohesive stage presence for performers and audiences alike.

For **seated ensembles or orchestras**, QUATTRO risers use **2m x 1m decks**, offering ample space for musicians, instruments, and chairs.

For **standing choirs**, narrower **PILOT 2m x 0.5m** or **2.4m x 0.5m decks** provide the perfect footprint for compact tiered vocal arrangements.

All risers feature either **carpeted deck surfaces** or **Black timber decks** for improved acoustic absorption, slip resistance, and visual uniformity. A comprehensive range of **safety accessories** — including **handrails, chair-stopper rails, and step units** — ensures total confidence and compliance in every performance setting.

**Modular Choir and Orchestra Risers –
Let us help you set the stage for great sound.**

MODULAR DRUM RISER PLATFORM SYSTEM

Engineered for musicians and live performances, the **QUATTRO Drum Riser** delivers a stable, professional platform that enhances visibility and sound projection. Each riser set measures **2m x 2m** and is mounted on **heavy-duty swivel wheels**, allowing smooth movement between rehearsals and performances.

The **carpeted deck surface** minimizes sound reflection and provides secure footing, while the robust aluminium framework ensures total stability under dynamic loads.

FEATURES

- 2m x 2m modular riser set for standard drum kit setups
- Heavy-duty swivel wheels for effortless mobility and repositioning
- Lightweight aluminium frame with 22mm structural plywood deck
- **Carpeted deck surface** for sound control and professional finish
- Chair boarder rail on 1 side
- Ideal for concerts, touring, schools, and event stages
- **Surface Options:** Carpeted or plain plywood deck
- **Storage & Transport:** Fully demountable and compact
- **Warranty:** 10 years

TAILORED. TOUGH. TRUSTED.

From **tiered seating** and **choir risers** to **drum platforms**, the **QUATTRO Modular System** adapts seamlessly to your performance needs — delivering a premium, Australian-made solution built to last.
