

WELCOME TO CONNECT 30

Welcome to Connect 30. What a year this has turned out to be for everyone. Such a disastrous start to the year with Bushfires in every state and now the pain of COVID - 19 – a true test to the resilience and fortitude of all Australians.

All through the COVID - 19 crisis we remain fully operational, and this is a reflection of the caution and commitment shown both by our employees and customers to support our Australian owned company – thank you.

With the uncertainty of the event world in the remainder of 2020, what may we do to help all walks of life recover and cope? Reports suggest we are going to rely on the Arts sector to provide a solution to ongoing mental health issues – how will this impact you?

We are also highlighting the versatility of our successful customer's events on the QUATTRO Modular Portable Stage system – a truly multifunctional Made In Australia Stage solution.

Read on and stay informed on the renamed DIVA Fold & Roll Stage system plus be inspired with the creative Stage solution Gerringong Church designed for their new build Church.

Management and Staff at Select Staging Concepts send you all our hopes for a fast solution to this insidious virus and that you all remain safe.

No matter the ongoing issues you are experiencing with the COVID-19 lockdowns, we are here to assist you with all your Stage, Ramp and Stage Accessory needs.

Arts & Cultural Activities will lead the way for a COVID Recovery.

To be included, to feel the freedoms of positive expression, to harness our cultural resilience, and to simply join in – in the new post COVID world, don't we all want this? Communities, commercial enterprises and governments Australia wide are actively recognising how the arts will be a major contributing factor to the pandemic recovery in mental health and community spirit.

In WA, Perth City Council have appointed Peter Ciemitis to oversee the "Economic Rebound Strategy" an initiative to re-energise communities and reset cultural programming. They recognise cultural infrastructure and the arts are at the centre of a successful COVID recovery not only for the City of Perth but for the state as a whole. Other State governments are following suite with similar infrastructure stimulus packages for the arts.

Education HQ just reported on a comprehensive study released by Monash University finding music and the arts are essential for social inclusion in schools.

The positive synergies gained from involvement in the music and drama courses in Australian schools provides inclusion for all, plus provides a way to include refugee students so they may succeed in the school system and then the wider community.

Collectively over the past months we have learnt the value of expression, and imaginative entertainment, to give us relief from the constant bombardment of COVID-19 information. Mental health issues and rediscovering the joy of human interaction in our isolation paves the way for a more inclusive need for the arts to perform for us.

So, how does an Australian owned and Made In Australia Stage system company work with you to activate the arts in your community - the event tidal wave is coming. Select Staging Concepts Portable and Permanent Stage solutions will perform to successfully provide Australia's post pandemic Arts and Cultural communities with the right event infrastructure.

Out of the ordinary does not mean it is too hard...

At Gerringong Uniting Church the Church community have proven how a simple elegant design paired with Made In Australia ingenuity results in a successful inhouse permanent Stage install.

The issue of distance between Gerringong and Select Staging Concepts' manufacturing warehouse in Lilydale was laid to rest with the effective communication to create a workable design for the permanent Stage required in the new Church space – and a design which would easily be installed by the Church members themselves.

All was achieved with the simple workable QUATTRO Modular Stage design. The modular podiums with custom height stage legs were manufactured to fit the elegant shaped Church Knave. The finishing touch was the addition of matching Stage Fascia to infill the sides of the Stage floor and front Step area to create the Permanent look of the whole Stage.

Once the Stage was delivered, the Church members easily assembled and installed the Stage and Step units themselves to complete the new build project.

It was such a pleasure working with Helen Harrison and her team and we wish them many years of successful events in the beautiful new Gerringong Uniting Church.

QUATTRO PODIUMS - How many ways can you put them to use?

The Made In Australia QUATTRO Portable Stage System is an amazing multifunctional solution for so many Australian industries, but how many people know how to reconfigure the Stage podiums to really perform for them?

The possibilities of these modular Stage Podiums are only limited by your imagination.

Some of our clever customers show us how purchasing one QUATTRO Stage System and adding a few different sized Legs and Stage Accessories, their Stage event options bloomed.

Hobsons Bay Council purchased our QUATTRO and DIVA Stage systems and recently added a selection of Adjustable Height Legs, Sway Bracing and Free Standing Steps to create an amazing Cat walk system in their beautiful Theatre for select community events. Even the Free Standing Steps provide a platform for the photographer to stand on during the recent fashion parade.

At Ingham State High School their QUATTRO Stage Podiums also double as tables for end of year school formal dinners – both as individual table settings and joined together to create long presentation tables – all covered by table cloths to create a formal elegant setting – just by adding 600mm Legs!

Mackay Choral Society perform in the expected Choral style plus diversify to a full Musical Theatre production all with the same QUATTRO Modular Stage Podiums configured exactly as they need. Their production of "Guys and Dolls" in conjunction with the Central QLD Conservatorium of Music was a tremendously energetic performance which showcased their QUATTRO Modular Stage system.

The QUATTRO Modular Stage System is a truly versatile performer - The performance partner you can rely on for all theatrical and orchestral performances; graduation and award presentations; formal dinners; fashion shows; drama classes; group fitness classes; expo event displays; merchandising display podiums – let your creative thinking begin!

DIVA FOLD & ROLL STAGE

Only 7 years ago we launched our innovative QUATTRO Fold and Roll Portable Stage to the Australian market. What a success that has proven to be. Using the unique strength and simplicity of our popular QUATTRO Modular Stage system we designed the QUATTRO F&R Stage to be totally mobile and simple to use with a safe built in trolley system. Thousands of clients across every Australian industry are now the happy and successful owners of the QUATTRO F&R Stage – she is an absolute Diva of a performer. So, to avoid any confusion with our premier QUATTRO Modular Stage we are tweaking just the name to welcome DIVA Fold and Roll Stage to our Made In Australia Stage range. She maintains all the original premium qualities and is still available in 300mm, 400mm and 600mm high with a comprehensive range of Marine Grade Carpet colours to dress the Stage to your décor. All the QUATTRO Accessories are ideal to finish the DIVA to perform to your exact needs – just add Steps, Valance Curtain with a Logo or Safety Rails. For up to date information and design ideas on our DIVA Fold and Roll Stage system contact the Select Staging Concepts team for your DIVA solution. Once a DIVA always a DIVA.
