

CONNECT 33

Happy New Financial Year to one and all. Welcome to Connect #33.

After such a tumultuous start to the year with numerous COVID lockdowns and halts to events around the country, we are looking forward with hope toward the year end events successfully proceeding.

One of our recent exciting architectural projects, Wirreanda Secondary School, are also hoping for the opportunity to welcome their school community to the official opening of the new custom designed Theatre. The extensive new build school project was completed in April with a large comprehensive [QUATTRO](#) Stage, Access Ramp and Stage Curtain solution – perfect for such a large proactive school community.

Hope and giving back are a major part of the Select Staging Concepts ethos, and we are proud to partner with RRT Smarrt Cookie initiative to help hungry Australian school children. No added cost to our customers to choose us – it all comes out of our pockets – but a huge incentive to place an order with a company with a social enterprise philosophy with the [“Select Effect”](#).

Each Stage system we manufacture is fully customisable by our clients – no “making do” with a premade imported Stage system only available in basic black. We offer each customer a choice in the [finish and colour](#) of their Stage podiums. Hopefully, those choices ensure the Stage order will work to the customer’s existing décor.

We don’t want our customers to just hope their new Stage system purchase will perform correctly. That is why we actively ensure each order of our “Made In Australia” Stages and Stage Accessories are covered by our [Warranties](#) for the unlikely event of a manufacturing or parts fault.

Want to help your organisation provide hope for year end events? Check out the generous [Free Freight Offer](#). Connect #33 is a great read full of uplifting and informative options for Staging solutions.

WIRREANDA SECONDARY SCHOOL THEATRE IS NO LONGER JUST A DREAM:

Caroline Fishpool, Principal at SA's Wirreanda Secondary School had a dream - to develop a state of the art theatre facility the whole school community may be proud of for years to come.

[Wiltshire Swain Architects](#) proactively approached Select Staging Concepts nearly 2 years ago to [custom](#) design the permanent Stage, Access Ramp and Stage Curtain system in the proposed new build School Theatre.

Using Select Staging Concept's premium [QUATTRO](#) system, to maximise the overall Stage area and maintain the desired Stage height a new Access Ramp Safety Rail system was designed to attach to the Ramp through the Ramp Floor Podiums rather than on the exterior edge. This ensured the double return shaped Access Ramp with two turning point Landings snugly fit into the small allocated area, and maintain the correct Australian Standards criteria in the continuous Ramp Hand Rail system.

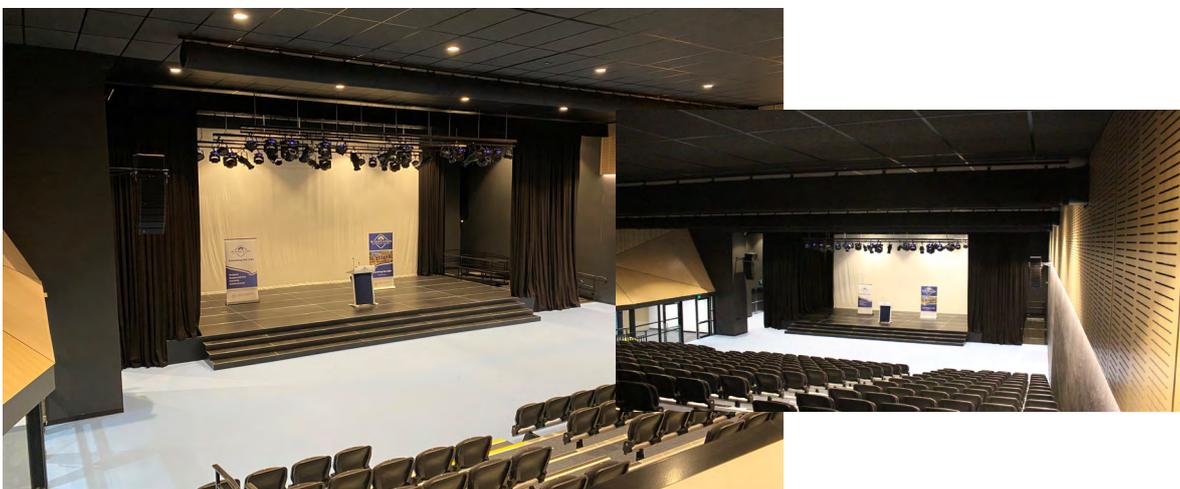

Ease of access to the Stage area is provided with full length sets of Stage Steps on the side and front of the Stage, plus the midpoint Ramp Landing has a small rear Step - all Steps safely providing access for multitudes of performance and event needs.

In the past, the school community hired the beautiful Hopgood Theatre, and so desired a new school Theatre with professional curtaining to frame the Stage and Ramp. Our curtain system partners, [Reveal Productions](#), provided a great team to assist design and install a complete ceiling Curtain Truss system prior to the full Stage, Access Ramp and Curtain system install.

[FDC Building SA](#) successfully tendered for the project build and were a pleasure to work with so we could finally successfully complete the project. With COVID affecting tightly scheduled install days, the projects' custom designed QUATTRO Stage, Access Ramp and full Stage Curtain system were finally successfully completed on time in mid April 2021.

Since the install, the school requested we add some totally removeable safety Hand Rails for use at the rear of the Stage when the Cyclorama Curtain is not in use, and designed to simply slot onto the existing permanent Ramp Hand Rails when needed.

A grand opening is in the pipeline once COVID allows the gathering of the [Wirreanda Secondary School](#) community and we wish them all the best - a magnificent legacy for all.

CHOICES! CHOICES!

STAGE FINISHES AND COLOURS - YOUR CHOICE!

Once upon a time, Stage systems offered any colour and finish as long as it was black timber stain!
How boring was that?

Another brilliant reason as to why you should choose a Select Staging Concepts "Made In Australia" Stage solution.

As we make to order, we offer a wide range of colours and finishes for all our Stage systems.

All QUATTRO modular Stages and Access Ramps, plus the DIVA Fold & Roll Stage system offer multiple colour options in both an elegant Timber Stain finish or quality Marine Grade Carpet acoustic and non-slip friendly finish.

The PILOT modular Stage comes in beautiful Timber Stain finish and again, with several colours of Stain to choose from.

MELBA Fold & Roll Choir Riser tiers are finished in a non-slip MAXI Hex black phenolic film – perfect to use outdoors if needed.

So, order an event Stage with an excitingly unique choice in [finish and colour](#) – only Select Staging Concepts offer you choices – ask us how today.

WARRANTIES - INTEGRAL TO CUSTOMER SERVICE

Some will ridicule a Warranty as only as good as a piece of paper. Not so at Select Staging Concepts.

Our Stage system Warranties are the building block to our commitment to provide only the best in customer service for each and every order.

As all of our Stage components are manufactured here in Lilydale, we know the workmanship and quality of each item are second to none.

Due to that premium quality, not many customers need to contact us on warranty issues, but when they do, we ensure each issue is quickly and successfully resolved. Never do our team make customers wait for an inspection and a debate as to the value of a claim, then delay the delivery of replacement parts as they have to come in from overseas, or the system has been discontinued overseas so no repairs are possible!

Each Warranty claim is looked at and a solution actioned within days, so little or no down time to use the Stage system. After sales service is just as important as the sale itself.

[Select Staging Concepts](#) give every customer peace of mind with a fair and protective Warranty on all "Made In Australia" certified Stage and Ramp orders.

SELECT EFFECT

A PLATFORM EFFECTING CHANGE

Now your staging system will become a force for good.

Together, we can help eradicate hunger in Australia's primary school children.

Select Effect is a social enterprise by Select Staging Concepts which enables any organisation to fund food from money they have already allocated to spend. No donation required.

With every Stage sale, Select Staging Concepts donates money from our own profits to help fund [Rapid Relief Team's \(RRT\) Smarrt Cookie breakfast Initiative](#). You don't pay a cent!

Whenever you place a Stage system order, we will fund more Smarrt Cookie Bars. The larger the order, the more we donate. It's simple.....and effective.

Here's an example of what we mean. A Stage order of around \$8000 would generate 333 breakfasts for hungry primary school kids – the [Select Effect](#) is far reaching.

You can help the fight against hunger in Australian primary school children – just ask us how.
